NAPANEE, ONT., FRIDAY, DEC. 24, 1880

## THE EXPRESS.

NAPANEE, DEC. 24th. 1880

THE census, of the Dominion, will be taken on Monday, April 4th, 1881. Account will be taken only of the domiciled population. There are eight schedules to be filled; the first gives a return of the living, the second of the dead. The third will treat of real estate, public institutions, etc.; the fourth of cultivated lands, field products, fruits, etc.; the fifth of live stock, animal products, furs and home-made fabrics. The sixth is a return of the forest, the seventh of shipping and the eighth of mineral products.

THE National Policy was to give Canada to the Canadians, but the Syndicate swindle not only sacrifices the country, but it is so framed that we are not sure of even incidental advantages. The precious charter gives the Syndicate authority to remove their head offices anywhere inside or outside Canada. So, the head offices may be fixed at Coboconk or Patagonia, but it is likely they will be removed to St. Paul, in Minnesota in the United States, where the active members of the Syndicate have their offices now. In Dakota members of the company own immense tracts of railway lands, and these lands they will try to get settled first; because the Canadian lands they will get for building the Pacific road being exempt from taxation, will keep and their Dakota lands must be settled first. In this way the Syndicate will receive over one hundred millions from Canada to act as Immigration Agents to the United States. Harrah! Canada for the Canadians!

One grand object of the National Policy was declared to be the development of Canadian

In this way the Syndicate will receive over one hundred millions from Canada to act as Immigration Agents to the United States. Harrah! Canada for the Canadians!

One grand object of the National Policy was declared to be the development of Canadian national resources. Now TAXATION TILLEY must either acknowledge his protective policy a fraud and a sham or that TURPITUDE TUPPER and the other fellows are making a fool of him, or rather improving on the raw material, politically speaking. In the construction of that portion of the Pacific Railway to be shot together by the Syndicate there will be used in materials of iron alone, some ten million of tons of iron, and all these are to be admitted duty free. What better chance of developing our iron industries will ever be presented? What a glorious chance to encourage home industries! In saddling their taxation policy on the people of Canada, the Government have got an idea that there is no limit to their gullibility. And the syndicate swindle is a proof of their belief to that effect. TAXATION TILLEY, has shown that he believes the N. P., a fraud and useless to secure what he claims it will secure, when in the interest of a railway company alone, he allows without protest and with absolute approval the only possible chance of its succeeding to be bargained away without the ghost of any equivalent.

TAMWORTH.

"I've dot sumfin nice to tell you."  
On Wednesday of last week we be-  
took ourself to the residence of Rich-  
ard Hazzard, Esq., near Tamworth,  
where over forty guests were assem-  
bled to witness Miss Emma J. Hazzard  
led to the altar of Hymen by David R.  
Sexsmith of Richmond. The ceremony  
was performed by Rev. R. N. Adams,  
of Tamworth. The groomsmen were  
C. D. M. Chambers, Napanee, and  
John M. Lyman, Enterprise; the  
bridesmaids, Miss Susie Moyle, Nap-  
anee, and Miss Esther A. Robinson  
Richmond. The bride and brides-  
maid were richly arranged in silk, and  
looked "just too awfully nice for any-  
thing." After the two were made one  
(a pretty difficult problem arithmetical-  
ly) all sat down to one of the richest  
repasts it has ever been our privilege  
to partake of. On Thursday morning  
the happy couple were escorted to Nap-  
anee, where they took the noon train  
for Ottawa. To them we would say  
notwithstanding the Hazzardous na-  
ture of matrimonial contracts:

Each friend may wish you success,  
May happiness your pathway brighten,  
May such endearing, fond, caress,  
Alay your fears, your burdens lighten.  
Is the wish of your friend.

## MATRIMONIAL.

Mr. Clement Amey of the 2nd Con. of Ernesttown, lately attained his majority and come into possession of the farm left by his father, Arnold Amey, deceased, has entered into a life partnership with Miss Emma Finley, of the county of Hastings, daughter of James Finley, late reeve of the township of Tweed, in said county. The happy couple were united at the residence of the bride's father on the 8th inst., and after enjoying a short honey-moon, came on to Ernesttown, and were received at the residence of the bridegroom, by the kind friends of the neighborhood, who had assembled there for that purpose. May the happiness and good feeling which welcomed them on their arrival at home continue with them throughout life.

## MISSION WORK.

The annual Missionary meeting in connection with the C. M. Church was held on Tuesday evening last. Speeches were delivered by the Revs. Hansford and Stuart. The choir, under the able management of Mrs. Rogers, discoursed sweet music, and at the close, were the recipients of praise from the Rev. Hansford, the Superintendent of the District, for their efficiency. The receipts of the evening amounted to the snug sum of \$172.00.

A worthy movement is on foot, to present Mrs. H. B. Wright, the superintendent of our Sabbath School with a purse of money, for the able manner in which she has presided over this body for the past ten years.

## ANOTHER MAN MADE HAPPY.

On Wednesday evening, at the residence of Mr. F. Priest, Mr. Herbert Gilbert, late of the county of Hastings, was united in holy wedlock to Miss Mary Johnston, daughter of the late James Johnston, Esq., of Bath, deceased. The ceremony was performed by the Rev. Wm. Briden, pastor of the C. M. Church at this place. This union is a peculiarly solid one, the ceremony having been performed by an ordained orthodox minister at the house of a Priest, and in the presence of a large number of witnesses, among whom we notice a 'Deacon' from the City of Belleville.

The C. M. Tea-meeting held in the Union School house, on the farm of Mr. Robt. McGee on Thursday of last week, was a complete success. The cash receipts amounted to between thirty and forty dollars. Others also lent valuable assistance in a musical way.

Mrs. Rigely who has suffered several years with rheumatism, is growing "quite smart" under the able treatment of Dr. Walker, who is daily winning new laurels.

Mr. Alex glass is offering his farm for sale and is selling of his stuff preparatory to his moving to Napanee, which town will thereby, if the rumor is true, secure a first class citizen.

There is a young man in our town, who, although hitherto a steady sober industrious man, is reported to getting fearfully addicted to his glass. So far has his appetite got the better of him that it is feared, if he remains in his present condition till New Year's it will be all over with him. And nobody who has seen the glass can have the heart to blame him; the "Kernel" wishes him and his fair co-partner all possible happiness. Own up, my boy, it's too transparent.

There is as yet very little excitement over municipal elections. It is not likely that our present popular and efficient reeve will have any opposition. But there seems to be an undercurrent at work indicating that nomination day will, begin a sharp fight for councillors.

Most of the fisherman have taken up their nets, they say there is no fish.

To his Honour William Henry Wilkison judge of the County Court of this County of Lennox and Addington. The Grand Jury beg leave to report as follows:—That we have disposed of the criminal business brought before us and discharged to the best of our ability the customary duties divolving upon Grand Juries. We regret the increase of crime in this County alluded to in Your Honors charge, and while deploing its existence we do not feel that it is expedient at present to recommend the appointment of special constables in the County as by the creation of a paid constabulary the expenses of the administration of justice would be increased and we are of opinion that under our admirable system of criminal administration sufficient appliances already exist for the discovery and punishment of crime, and indication of the law. **MADOLE ET AL TREMBLING.** This was an action brought by the plaintiffs (better known as Wright & Co) of this place against the defendant, who lives in Quebec. It appeared from the evidence that defendant ordered a cheese press from the plaintiff which the defendant claimed was defective. A good many witnesses were examined upon behalf of both parties. There was nothing noticeable about the case except that a French interpreter was employed (and an able one was found in our respected townsmen Dr. Clement) to translate the questions of counsel to the witnesses and their answers again to the court and counsel. The case was tried by his Honor without a Jury who after hearing the arguments of learned counsel reserved his decision.—Reeve & Morden for plaintiff; Deroche & Madden for defendant.

**ANDREWS VS AIRHAET.** Action for unpaid rent claimed by the plaintiff from the defendant. By consent record with drawn. Reeve & Morden for plaintiff, Deroche & Madden for defendant.

14. The property of the company and its lands to be free forever from municipal and provincial taxation!

15. The Government must accept the land bonds of the company and pay interest on them to the extent of one-fifth of the issue!

16. The Government must construct the line from Thunder Bay to Selkirk with stations, water, supply, etc., and hand it over to the company without charge to be their property in fee simple forever!

17. The Government must construct the line from Yale to Kamloops and hand it over on the same terms as the Thunder Bay branch!

18. The Government must construct the line from Yale to Port Moody and hand it over to the company on like terms!

19. The company may fix their head offices within or beyond the limits of the Dominion!

Let us endeavor to estimate the money value of these concessions:

Cash subsidy	\$ 25,000,000
Land subsidy	50,000,000
Completed branches	34,500,000
Remission of Customs duties	16,000,000
Exemptions from taxation	12,000,000
Excess in value of picked land	15,000,000
Harbors, stations, yards, etc.,	5,000,000
Road bed, branches, stations	5,000,000
Twenty years monopoly of branches	5,000,000
Monopoly charges above ordinary profits for 20 years at \$5,000,000 a year.	100,000,000
<b>Grand total</b>	<b>\$261,500,000</b>

Such is the stupendous outrage contemplated by the Government. Nothing that ever entered into the human mind can equal it, and the people who have to bear this gigantic charge are not to be permitted to discuss it, nor to say whether they and their children shall forever be made the bondsmen of a corporation secured by charter beyond the reach of Parliament. There is no saving clause. The terms are more like what would be imposed by a military conqueror after the country had been prostrated by an unsuccessful war, than the mutual agreement between an independent government and a company of speculators.
